

Meliani – Pangkalpinang
Hip Pain and Headaches Cured

"My hip bone is often in pain and (I) have difficulty sleeping because of headaches and leg cramps. After using Rejuve Crystal routinely, now I (feel) healthy; (my) hip pain, cramp and headache are all cured. Amazing!"

Lisa Mogalana – Tangerang
Quick in Relieving Stiffness & Tingling

"When my neck feels stiff, I immediately put Rejuve Crystal near my neck. The result, (my neck) is better and not stiff anymore. It is also good to help relieve tingling on my hand in just a few minutes."

Silvia Sari Dewi – Jakarta
Pain due to Sprain Reduced

"At that time, my leg was sprained. It was swollen and it hurt to walk. Fortunately, I have the Rejuve Crystal. In the morning the pain has lessen and I could even walk up a mountain even if it was still swollen."

Grace – Banjarmasin
With Rejuve Crystal Pain Lessened Immediately

"At that time, my aunt fell from the stairs. Finally I kept putting on Rejuve Crystal (on her). Tomorrow, the pain on the swollen leg immediately subsided."

Hans Lee - Pontianak
(Help) Sleep Better

"In the past, I had problems with sleeping because I often stayed up late. But since I routinely use Rejuve Crystal, I can finally sleep better."

Amelia Tanudjaja – Tangerang
Better Sleep and No Waist Soreness

"During travelling, I often carried Rejuve Crystal and the effect is that my waist does not feel sore anymore even though I travel to a lot of plaes. Even when I'm sleeping, I always put Rejuve Crystal in my pillowcase to sleep better."

The human body is surrounded by positive and negative ions. Therefore, the function of electrons found inside and outside of our cells have significant influence. Negative ions can be absorbed by humans through breathing and skin which then will be carried through the blood. Furthermore, negative ions will maintain the blood acidity level and improves the lymph function. Negative ions can be found in a pollution-free nature.

However, to get clean air rich in negative ions in the urban areas is very difficult because of the large amount of pollution. From transportation emissions, factory air pollution

to emissions from household activities often creates air pollutants, such as dust, germ, virus, bacteria and other free radicals that can endanger human health if it continuously being absorbed by the body. But now, you can easily access negative ion source to help maintain your body's health.

LiveWell Global presents Rejuve Crystal, a funnel-shaped health supporting device with a 9 cm diameter and 1 cm thickness. A set of Rejuve Crystal contains high negative ion levels at 7000 ions. The funnel-shaped glass contains 5000 ion levels and the rubber band (that protects the glass) has 2000 ion levels.

Rejuvé Crystal Has Higher Negative Ion level!

The more negative ions contained in the blood, will make the metabolism process more efficient. On the other hand, more positive ions will reduce the efficiency of the cell metabolism, so that the body became weaker and prone to sickness. Rejuve Crystal is proven to have a higher negative ion level compared to similar products in the market.

Ion Tester Test Result:

Negative Ion level testing for funnel-shaped glass of Rejuvé Crystal

Negative Ion level testing for the Rejuvé Crystal protective rubber band

Benefits of rejuvé Crystal

- Stabilizes the energy found in the environment due to Electromagnetic Field (EMF).
- Forms quantum field that can harmonize the energy and frequency in the room.
- Helps increase stamina and sleep quality.
- Helps blood circulation.
- Helps maintain body endurance and metabolism process.
- Helps neutralize air pollutants (pollution causing substances), such as germs, dusts, bacteria and others.

rejuvé Crystal Usage

- Rejuvé Crystal can be carried and placed on top of a table at home, office or on top of the bed.
- Rejuvé Crystal can be placed directly on the body to increase stamina.
